Alphabet Song Lyrics

Lesley Beth

Sound-Letter Relationships as a First Step to Early Reading Readiness.

Introduction

This book contains 28 fun, learning song lyrics from the Jazzles *'Alphabet Clever Songs'* CD.

They can be printed and used with the Jazzles CD to guide children through the letters and the words of each learnt alphabet letter song. If used for group reading, enlarge the song lyrics before printing. Using the CD and lyrics together this way, you will find children enjoyably learn, recall and understand initial sound-letter relationships as used within the context of the text. Watch their self esteem grow as they 'read' the known song!

These song lyrics are reproducible and printable for personal use and also in an educational setting for use by students for learning purposes. Song lyrics may be performed royalty free within schools for purposes such as assemblies, parent nights and fund raising occasions.

To help you, author Lesley Beth explains how to use the CD with these song lyrics and the associated coloring pages.

2. Begin to read with increasing independence and comprehension.

Background

Lesley Beth writes:- "We all know that music is the 'universal language' and that children love to sing, move and dance. As an experienced teacher, I know it is much better to help children learn through the fun that music creates than through rote.

For generations, teachers have used nursery rhymes and songs to aid literacy. So too, have advertisers and marketers utilized rhyme, alliteration and catchy tunes to help us recall.

Nowadays our early maturing children, who are brand name 'literate' even before they have learnt to read, find traditional nursery rhymes and their often outmoded language unfamiliar and irrelevant.

Jazzles 'Alphabet Clever Songs' recognizes this evolution with a contemporary approach to alphabet learning using amusing lyrics and upbeat music more relevant to children being exposed everyday to new language and lifestyle concepts.

Using Jazzles 'Alphabet Clever Songs', you will soon see how singing creates emotional engagement and memorability. Using rhythm, rhyme, alliteration and musical techniques, these songs help children recall sound-letter relationships as an initial step in learning to read."

A handwritten signature in cursive script that reads "Lesley Beth". The signature is fluid and elegant, with a large loop at the end of the last name.

A Song for Every Alphabet Letter

The 26 Jazzles alphabet songs are a fun way for children to pronounce, understand and experience the use of every letter in the alphabet. An additional theme song, 'Alphapazzazz' helps children learn the order of the alphabet and why we need to know these letters in order to read and write.

While focused on literacy, these catchy songs have children irresistibly singing and moving. Working out actions to the songs reinforces the comprehension of the focus letter words and is an activity in which all children enjoy and participate. Even children experiencing problems focusing on formal learning willingly participate.

Simple Step by Step User Guide

Insert the Jazzles CD into a PC CD-ROM drive and you will find printable, reproducible song lyrics and coloring pictures for all Jazzles 'A-Z' songs.

Here is a practical step by step way to using these materials in combination with the CD:-

1. Make an enlarged copy of the song lyric(s) for whole class 'reading'.
2. Play the selected song on the Jazzles Alphabet Clever Songs CD. Teach the words.
3. Sing along with your children. Point out the focus letter everywhere it appears on the focus letter lyric page. Let children highlight these letters with a felt pen.
4. Discuss the meaning of the song lyrics.
5. Use the relevant alphabet letter coloring page in the accompanying 'PDF' Coloring Book on this CD to identify pictures starting with the focus sound and practice the letter formation.
6. Use the content of the songs to promote discussion amongst the children regarding anything from science to geography. For example, the 'A' song lends itself to drama and geography. Children can play the part of the Alligator or the Ant and look at the globe to find Africa and America. Additionally, the sound of the rocket in the song lets the children use their imagination in interpreting the lyrics into drama. Similarly, the 'J' song lends itself to movement (Jiggle, Jump, Jog); the 'P' song lends itself to dancing (Party) and cooking (Pizza, Popcorn); the 'V' song lends itself to research on volcanos and building a 3-D model.
7. Use the song to prompt more discussion or develop ideas on any associated subject. For example, with 'A' song, study ants! With the 'X' song, discuss extinction and endangered species. With the 'K' song, talk about the joy of 'kindness'.
8. Listen to the tracks and talk about the different musical styles. Identify different musical instruments.
9. Perform songs with children playing percussion instruments (for example tambourines in the 'C' song) or groups of children singing 'echo' backing parts (for example, in the 'B' song).
10. Ask children to develop actions, movements and appropriate dance routines for songs. For example, in the 'R' song, children sit as in a boat and 'row' in time to the music. With the 'P' song, have disco dancing. On the 'J' song, there's plenty of aerobics – with jogging, jumping and jiggle movements!
11. Create dramatic performances for some songs. For example, with the 'A' song, create a playlet around an "Alligator and an Ant". Watch all the 'Hands Up' when you ask for volunteers to play the queen or the quacking duck in the 'Q' page! Even more hands appear seeking to be one of four children standing back-to-back and making the eight waving arms of the orange octopus lurking in the depths while the remaining children swim around under the imaginary ocean! Great fun – particularly if they have just been to an aquarium!
12. Take a tip! Let your children play the CD and sing the songs whenever they want. Children will! They all enjoy the songs!
13. After the children have learnt the songs, it's easy to assess their sound/letter recall. Just ask -"What is this song?" and they will reply, for example, "It's the 'b' song". Reach that stage and you know they have accessed that sound through recall.
